THE GAIL PROJECT: AN OKINAWAN-AMERICAN DIALOGUE
Dear UC Santa Cruz Alumni and Friends,

I’m writing to invite you along on an adventure: 10 days in Okinawa, Japan with me, a cohort of Gail Project undergraduates and fellow travelers, all exploring the history, tradition, and culture of this unique and significant island.

We will visit caves that were once forts in the heart of battle, winding markets with all of the tastes, smells, and colors you can imagine, shrines that will fill you with peace, and artisans who will immerse you into their craft. We will overlook military bases as we think about the American Occupation and the impacts of that relationship. We will eat Okinawan soba (noodles with pork), sample Goya (bitter melon), learn the intricate steps that create the dyed cloth known as Bingata, and dance to traditional Okinawan music.

This is a remarkable opportunity for many reasons, as this trip is the first of its kind at UC Santa Cruz. I’m also proud to provide you with a journey unlike any you will have at other universities, as we are fusing the student and alumni experience. Our Gail Project students, while still working on their own undergraduate research, will make special appearances with the travelers and act as docents and guides at various sites along the way. This experience will allow travelers to meet and learn along with the students, and will offer insight into UC Santa Cruz’s commitment to hands-on research opportunities for undergraduates.

Please join us, and immerse yourself in the intertwined history of Ryukyuan, Japanese, and American peoples. Bring a travel partner, a good sunhat, a big appetite, and a thirst for history and culture.

If you wish to join the trip or have questions, please contact Sarah Caldwell at (831) 459-1536 or at sacaldwe@ucsc.edu.

Best wishes,

Dr. Alan Christy
Cowell College Provost and Professor of History, UC Santa Cruz

**About the Gail Project....**

The Gail Project is a collaborative, international public history project that explores the founding years of the American military occupation of Okinawa. The project is inspired by a collection of photos taken in Okinawa in 1952-53 by an American Army Captain: Charles Eugene Gail. The photos were generously donated to Special Collections at UC Santa Cruz McHenry Library by Charles’ daughter, Geri Gail, and have since been made available for student research.

Our team of faculty, artists and undergraduate students at the University of California, Santa Cruz, are developing a traveling exhibition of Gail’s photographs with an accompanying digital archive that is comprised of the photos, key texts and documents, oral histories from both American and Okinawan voices, as well as undergraduate student research and writing. We believe that using the photographs as a lens through which to view this crucial time is relevant to populations throughout Okinawa, Japan, the United States and the entire Pacific region. We hope this project encourages a broad public dialog across the Pacific about the past, present, and future of the Okinawan-American relationship.

The project emphasizes hands-on research and creation of stories and art by undergraduate students.

Professor Alan Christy is the project director, Shelby Graham of the Mary Porter Sesnon Gallery is the exhibition director and curator, and Tosh Tanaka is media director.
Study Leader: Dr. Alan Christy

Alan Christy is an Associate Professor of History, specializing in Japanese and East Asian History at UC Santa Cruz.

He began his study of Japanese as a sophomore at Carleton College in 1982 and his fascination with Japanese history was set during a junior-year study abroad program in Kyoto. He has lived in Japan for eight years, studying for four years under one of the great historians of medieval Japan, Amino Yoshihiko (two of whose books he has translated), and teaching two years as a visiting scholar at the University of Tokyo. He became interested in Okinawa while working on his dissertation on the rise of folklore studies in early 20th century Japan when he observed that Japanese folklorists viewed Okinawa as the most important site for research on ancient Japanese culture. He has continued his interest in the island as his current research has come to focus on memories of war in Japan.

Alan received his Ph.D. in Japanese history from the University of Chicago and began teaching at UC Santa Cruz in 1995. He teaches classes on early modern Japan, modern East Asia and memories of WWII in the Pacific. He is co-director, with Prof. Alice Yang, of the Center for the Study of Pacific War Memories, and has run through that Center The Gail Project, a collaborative research and traveling exhibition project, with a team of undergraduate researchers and UC Santa Cruz staff. Alan believes deeply in the importance of experiential learning and embraces opportunities to travel to Japan with students and alumni who want to learn history in the places where it happened.

Rokko mountain range, Kobe is considered one of Japan's most attractive cities. In the 19th century the Port of Kobe became one of the first cities to open to international trade. European traders made their homes in the city's Kitano district, and many of their old Western-style homes and mansions still stand. After the massive 1995 earthquake that nearly leveled the city, the locals have rebuilt what is now considered one of the most beautiful cities in Japan.

Enjoy a half day tour on the Shin-Kobe Ropeway that goes up the southern slopes of the Rokko mountain chain. It passes by the Nunobiki Waterfall and the Nunobiki Herb Garden. The highlight of the ride lies in the observation deck on the top with a spectacular view of Kobe.

Visit the Kitano-cho city district at the foot of the Rokko mountain where many foreign merchants and diplomats settled in the second half of the 19th century. More than a dozen of the former mansions, known as Ijinkan, remain in the area and are open to the public as museums. Enjoy a pleasant walk through the district which offers a variety of cafes, restaurants, and boutiques.

Continue to Nankinmachi, Kobe's compact Chinatown and a center of the Chinese community in the Kansai Region. The area was developed by Chinese merchants who settled near the Kobe Port after it was opened to foreign trade in 1868.

In the evening, enjoy farewell dinner at hotel restaurant. (B,D)

August 26 • Naha - Hiroshima
After breakfast, transfer to the Naha airport for your flight to Hiroshima.

Visit the Atomic Bomb Dome and Peace Memorial. Once the city center of Hiroshima, the Peace Museum presents an accurate picture of the atomic attack by recording the tragic and terrible effects of the bombing and subsequent radiation. Opened in 1950, the main building conveys what happened through scientific displays and exhibits of items belonging to the victims, while the east building describes the city's nuclear disarmament efforts.

The Atomic Bomb Dome was located just 160 meters from the epicenter of the blast and though most of the building's walls were destroyed in the bombing, it was one of the few structures in the area to remain upright. In the postwar era, it became a symbol of the atomic bombing and in 1996 was inscribed as a UNESCO World Heritage site. (B)

August 27 • Hiroshima - Miyajima
Transfer by train and ferry to Miyajima Island to visit the Itsukushima Shrine and see the famous O-Torii Gate. A registered World Heritage Site, the shrine and its tori gate are unique for being built over water, seemingly floating in the sea during high tide. The shrine complex consists of multiple buildings, which are connected by boardwalks and supported by pillars above the sea.

The island's highest peak, Mount Misen, was worshiped by local people as early as the 6th century. In 1168, Taira no Kiyomori, the most powerful man in Japan during the end of the Heian Period, selected the island as the site of his clan's family shrine and built Itsukushima Shrine. You may take a cable car to the peak for a bird view of the island.

Enjoy Daigan-ji Temple and Omotesando Street for shops and souvenirs.

Return to Hiroshima via ferry and train. (B)

August 28 • Hiroshima - Kobe
After breakfast, transfer to Kobe by Shinkansen bullet train. Located between the sea and the Rokko mountain range, Kobe is considered one of Japan's most attractive cities. In the 19th century the Port of Kobe became one of the first cities to open to international trade. European traders made their homes in the city's Kitano district, and many of their old Western-style homes and mansions still stand.
